

### **California AB 1305 – California Voluntary Carbon Market Disclosure Act Information**

The Sherwin-Williams Company provides on this company internet website and in its linked documents on this website the information required under the applicable provisions of the Voluntary Carbon Market Disclosures Act, codified at Cal. Health & Safety Code Section 44475.2(a)-(b). This includes all information documenting how voluntary carbon claims are determined to be accurate and how progress toward carbon reduction goals is measured. Sherwin-Williams annually reports its Scope 1 and Scope 2 greenhouse gas (“GHG”) emissions, following the GHG Protocol, within its Sustainability Report. Sherwin-Williams uses that information to update required disclosures each year pursuant to Cal. Health & Safety Code Section 44475.3(b).

Sherwin-Williams has set GHG reduction and renewable energy sourcing goals to achieve by 2030, as set forth in our latest Sustainability Report. Progress toward the goals and the basis of reporting is provided in the Sustainability Report or its appendices. No independent third-party verification of data or claims has been obtained.

Sherwin-Williams does not currently sell, market, or use voluntary carbon offsets that require disclosure under Cal. Health & Safety Code Section 44475.1.

### **CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING AND OTHER INFORMATION**

The information provided herein is intended for the sole purpose of disclosure under the Voluntary Carbon Market Disclosure Act and should not be relied upon for any other purpose.

By posting this information, Sherwin-Williams is not conceding that any specific item is required to be disclosed or otherwise subject to the California Voluntary Carbon Market Disclosure Act. Our sustainability-related goals and targets, underlying estimates, assumptions, and data, our strategies, plans, and objectives, and other forward-looking statements made available on or through our website are based upon current expectations, predictions, estimates, assumptions, and beliefs concerning future events and conditions at the time of release or publication, and are necessarily subject to risks, uncertainties and other factors, many of which are outside the control of the Company, that could cause actual results to differ materially from such statements and from our historical results, performance, and experience. In addition, historical, current and forward-looking information made available on or through our website may be based on standards, methodologies, and practices for measuring progress that are still developing, internal controls and processes that continue to evolve, and assumptions that are subject to change. Accordingly, historical, current and forward-looking information, including goals and targets, and underlying estimates, assumptions, and data, may be subject to modification in future disclosures due to such developing standards, methodologies, practices, controls and processes; general business and economic changes; and unknown events and circumstances. Readers and viewers are cautioned not to place undue reliance on such information.
