

## FORWARD-LOOKING STATEMENTS AND OTHER INFORMATION

Certain statements made available on or through our website, including in reports, documents, videos and other content, constitute “forward-looking statements” within the meaning of federal securities laws. These forward-looking statements are based upon management’s current expectations, predictions, estimates, assumptions and beliefs concerning future events and conditions and may discuss, among other things, goals and targets and underlying assumptions, data, strategies, plans and objectives, anticipated future performance, expected growth, future business plans and costs and potential liabilities. Any statement that is not historical in nature is a forward-looking statement and may be identified by the use of words and phrases such as “believe,” “expect,” “estimate,” “project,” “plan,” “goal,” “target,” “potential,” “intend,” “aspire,” “strive,” “may,” “will,” “should,” “could,” “would,” “seek” or “anticipate” or the negative thereof or comparable terminology.

Readers and viewers are cautioned not to place undue reliance on any forward-looking statements. Forward-looking statements are necessarily subject to risks, uncertainties and other factors, many of which are outside our control, that could cause actual results to differ materially from such statements and from our historical results, performance and experience. These risks, uncertainties and other factors include such things as: general business conditions, including the strength of retail and manufacturing economies and growth in the coatings industry; adverse changes in general economic conditions, including the inflationary environment, global credit markets, and currency fluctuations; any disruption in the availability of, or increases in the price of, raw material and energy supplies; disruptions in the supply chain; catastrophic events, adverse weather conditions and natural disasters; losses of or changes in our relationships with customers and suppliers; our ability to successfully integrate past and future acquisitions; risks and uncertainties associated with our expansion into and our operations in foreign markets; cybersecurity incidents and other disruptions to our information technology systems; our ability to attract, retain, develop and progress a qualified global workforce; our ability to execute on our business strategies related to sustainability matters, and achieve related expectations; damage to our business, reputation, image or brands due to negative publicity; our ability to protect or enforce our material trademarks and other intellectual property rights; our ability to comply with numerous and evolving laws, rules and regulations; adverse changes to our tax positions; increasingly stringent domestic and foreign governmental regulations; inherent uncertainties involved in assessing our potential liability for environmental-related activities; other changes in governmental policies, laws and regulations; and the nature, cost, quantity and outcome of pending and future litigation and other claims.

Readers and viewers are cautioned that it is not possible to predict or identify all of the risks, uncertainties and other factors that may affect future results and that the above list should not be considered a complete list. Any forward-looking statement speaks only as of the date on which such statement is made, and we undertake no obligation to update or revise any forward-looking statement, whether as a result of new information, future events or otherwise, except as otherwise required by law.
